

Indiana Utility Regulatory Commission Regulatory Commission

Dear Indiana Utility Regulatory Commission Commission,

I am outraged that a highly profitable company like Sprint Nextel is demanding unfair concessions from the workers who make those profits for you. It is unfair to demand concessions on health care, overtime pay, sick and vacation leave, 401k plans and more--especially as you abandon local phone service in our communities.

I believe corporations serve their customers and the public and have a duty to meet the expectations we hold for them. Sprint Nextel is not meeting those expectations. I prefer to do business with companies that treat workers as they should be treated.

Therefore, I plan to drop my Sprint Nextel service and switch to Cingular for wireless service and AT&T for long distance.

Sincerely,

Mike Goodman

Dear Indiana Utility Regulatory Commission Commission,

I am outraged that a highly profitable company like Sprint Nextel is demanding unfair concessions from the workers who make those profits for you. It is unfair to demand concessions on health care, overtime pay, sick and vacation leave, 401k plans and more--especially as you abandon local phone service in our communities.

I believe corporations serve their customers and the public and have a duty to meet the expectations we hold for them. Sprint Nextel is not meeting those expectations. I prefer to do business with companies that treat workers as they should be treated.

Therefore, I plan to drop my Sprint Nextel service and switch to Cingular for wireless service and AT&T for long distance.

Sincerely,

Ray Goforth

Indiana Utility Regulatory Commission Regulatory Commission

Dear Indiana Utility Regulatory Commission Commission,

You need to make sure that Nextel....now Sprint is taking appropriate measures to ensure that OLD NEXTEL CELL PHONES are NOT being re-activated via a home telephone...WITHOUT PROPER IDENTITY BEING PRODUCED!

I am requesting that proper ID be required to obtain ALL cell phone service. The customer service representatives should ask to see:

1. To visually see a social security card.
2. Visually see a drivers license card or other proper ID to verify the TRUE identity of the person requesting service.

ANYWAY.....DO SOMETHING!!!!!!

Nextel Apparently did not and still does not have appropriate security measures in place to protect the general public from fraud/identity theft.

This is a very serious matter...A few years back Nextel allowed someone to walk into their business office on Lenoir Rhyne Blvd in Hickory and add a new line/phone to my husband's existing cell phone service.....without him ever being contacted. He was furious to say the least! I took care of that matter myself.

APPARENTLY THE "NEW" SPRINT NEXTEL NEEDS TO TAKE SOME TIME TO TRAIN THE CUSTOMER SERVICE REPRESENTATIVES.....apparently these people are on commission or something and have a "no care attitude"...in my opinion.

Basically...you merged with a company (Nextel) that has NO regard to security measures in place to protect the general public. I have never had any problems with Sprint....just Nextel and their cell phone service is lousy to say the least.

It's a real hoot when you have to hang a cell phone on a blind or sit it in a window...to get a signal. NOW...what you wanted with this company is beyond me!

Dear CEO Hesse,

Sprint's plans for the new company that provides local telephone service to 7.5 million customers are an outrage.

This company is being unfairly saddled with \$7.25 billion in debt after Sprint pledged to the Federal Communications Commission earlier this year that there would be an equitable distribution of the overall debt and assets of Sprint.

Clearly, this company is being set up for failure, by transferring this excessive debt to local service and requiring an onerous, one-sided repayment schedule.

These actions are sure to result in higher rates for customers, poor quality service with the new company unable to invest in repairs and upgrades, and an endless wait for customers who want broadband service and other technologies.

The 7.5 million mostly rural customers served by Sprint local telephone service deserve better. They have contributed billions in profits to Sprint -- \$6 billion last year alone. Sprint Nextel, after taking customers' money, apparently has decided to abandon their service needs.

Sprint's attitude toward workers who provide quality service isn't any better. Sprint has demanded huge givebacks in health care, disability benefits, retirement security and other benefits that Sprint workers have earned over the years. My father has been employed with Sprint for 38 years and has been a loyal, dedicated and hardworking employee. It is unfair to take away benefits from loyal employees when Sprint is obviously increasing their profit in a lucrative and booming business. Employees earn these benefits and a company that truly values employee commitment would be willing to listen to the voice of the employees.

I urge you to sit down with Sprint workers to reach a fair contract, and to restructure the enormous debt and repayment

plan that you currently expect the new local telephone company to support.

I am certain that state and federal regulators are closely following these developments.

Sincerely,

Tamara Mann

Dear Indiana Utility Regulatory Commission Commission,

I am outraged that a highly profitable company like Sprint Nextel is demanding unfair concessions from the workers who make those profits for you. It is unfair to demand concessions on health care, overtime pay, sick and vacation leave, 401k plans and more—especially as you abandon local phone service in our communities.

I believe corporations serve their customers and the public and have a duty to meet the expectations we hold for them. Sprint Nextel is not meeting those expectations. I prefer to do business with companies that treat workers as they should be treated.

Therefore, I plan to drop my Sprint Nextel service and switch to Cingular for wireless service and AT&T for long distance.

Sincerely,

David Mason
